NIH National Institutes of Health

ODSS-NIAAA Collaboration

2025

2025 ODSS Report for NIAAA

In 2023 (the most recent year with co-funding), ODSS provided $297,033 in funding to NIAAA. This provided support for two co-funding awards in one goal area — data infrastructure development.

ODSS looks forward to working with NIAAA to identify potential activities to continue our partnership.

Collaboration Output

15	1	13	17	4
Publications[1]	Clinical trial[1]	ChIRP users[2]	Coursera users[3]	STRIDES accounts[4]

[1] Data sources: QVR and iTools. Fiscal Years: 2020-2025. These are output numbers associated with core awards, filtered to include only outputs that occurred after an ODSS-associated application was funded.

[2] ODSS, in collaboration with OD, CIT, NHLBI, and NIA, developed an NIH community pilot LLM chatbot called ChIRP. ChIRP is funded by ODSS and OIR, aiming to create a secure environment for NIH staff to safely explore how generative AI technologies. As of November 2025, ChIRP had 863 active users.

[3] To enhance NIH workforce training, ODSS collaborates with NLM to fund and manage the NIH Coursera Program that offers a limited number of free Coursera licenses to NIH staff. As of August 2025, all 1,103 Coursera licenses were actively in use across the NIH. Please note that Coursera paused on 9/6/2025 due to contract processing delay but will restart as soon as acquisition is processed in the new fiscal year.

[4] (Collaborative support from CIT and ODSS) The NIH Science and Technology Research Infrastructure for Discovery, Experimentation, and Sustainability (STRIDES) Initiative is a partnership with commercial cloud service providers (CSPs) to allow NIH-supported researchers to affordably explore the use of cloud services and environments to streamline NIH data use.
